

**REMARKS**

In the Notice of Allowance, the Examiner included a set of Examiner-amended claims. Applicants note that this set of claims includes two claims numbered 24. The second claim 24 should be deleted as it merely represents claim 24 prior to being amended by the Examiner. For the convenience of the Examiner, Applicants include herewith a copy of the claims as they should currently stand after the Examiner's amendments.

In the Statement of Reasons for Allowance, the Examiner stated:

The term "machine-readable medium" as recited in claim 25 will be interpreted as the storage device for example RAM, ROM.

Applicants note that claim 25 does not recite a "machine-readable medium" but rather recites a "machine-readable storage medium". A "machine-readable storage medium" should be interpreted to be any storage medium capable of storing instructions for execution by one or more processors, including but not limited to RAM and ROM.

Respectfully submitted,

Hickman Palermo Truong & Becker LLP

Dated: December 23, 2008
